

*Comprehensive Construction Services (CCS) is dedicated to being the most diversified construction company in Northern California, hence the name! The company is built based on five separate divisions: General Engineering Contractors / Excavation, General Building Contractors/ Construction, Drafting and Design, Green / Energy Efficient (Solar) and Steel/metal building division. CCS does new construction for residential and commercial projects. CCS provides services in many areas, but one area we do not undertake is smaller scale (bathroom, kitchen, room division, etc.) standalone remodeling; we do however undertake extensive remodels in conjunction with additions and full house retrofits. CCS has been providing quality services since 1990.*

### CORE COMPETENCIES

Our service departments are divided into five areas of expertise:

- ✓ General Engineering Contractors/Excavation
- ✓ General Building Contractors
- ✓ Drafting and Design
- ✓ Green / Energy Efficient
- ✓ Steel/Metal Buildings
